

In memory of the recently deceased prof. Howard Morris, the Journal of BIOLOGICAL REGULATORS & Homeostatic Agents (Journal of Biology) points out the Howard Morris 2019 award, rewarding the best four scientific contributions received by our scientific secretariat.

“HOWARD MORRIS AWARD 2019”

Italian Section:

the prize goes to the doctor B. Modafferi and V. Latella for the attention, the critical spirit towards a simple, but only apparently, laboratory test that has allowed a patient to face a complex pathology in a very short time.
